PROFILE

Self-motivated
Over a year hands-on learning and experience in IT field.
TECHNICAL PROFICIENCY: I participated projects and got some experience in Frontend and Backend.

Like professional knowledge of technologies in html, css, sass, bootstrap, JavaScript, Redux toolkit, TypeScript, Python, MERN Stack (MongoDb, Express, React, NodeJs).

Currently I'm doing some practices with MERN Stack. I didn't stop to learn, now I'm learning Nodejs in advanced level and Algorithms && Data structures.

I would like to start working as a Frontend Developer:)

Experience

2021-2022
CHONNAM NATIONAL
UNIVERSITY

OFFICE ASSISTANT

- Helped teaching staff with basic office work in the main department office of the faculty

2022-PRESENT
FREELANCER

STRONG JUNIOR FRONTEND AND BACKEND WEB DEVELOPER

I participated projects and got some experience in Frontend and Backend, one of them is that: [LSL Education](#)
We are working remotely with my Friends. I got experience working with github. In this project I made creating-test at Admin Dashboard, solving-test in user route in frontend and backend. I had some problems with creating-test and solving test cause there were 2 types of questions.
1. Multiple Choice
2. Matching words
working with matching words is not easy I think so. However I got results perfectly Alhamdulillah

2018-PRESENT
CHONNAM NATIONAL
UNIVERSITY
